### **Transylvania County Department of Public Health Announces Updated Website**

The Transylvania County Department of Public Health has recently updated the agency website. While parts are still under construction the public is invited to visit the site. Information that has been added to the site includes the most recent Community Health Assessment and State of the County Report. In addition, several links such as Center for Disease Control and others have been added. To visit the website go to [www.transylvaniacounty.org](http://www.transylvaniacounty.org) and select Health Department on the right hand side about mid-page down.

The Community Health Assessment is completed every four years and the State of the County Report is completed in the intervening years. This year the Department, in partnership with the Land of Waterfalls Partnership for Health and other agencies will be conducting the new Community Health Assessment. If you would like to be a part of the process please contact the Department of Public Health at 884-3135. Office hours are Monday-Friday 8:30 a.m. – 5 p.m.

The Department of Public Health has developed a Community Health Resource list which is being added to the site. A Spanish translation will be added very soon.

If you have questions or suggestions, please call the Department of Public Health at 884-3135.
